Page 2 of 2

The draft Request for Proposal (RFP) provided, for comment, that the Offeror had the discretion to subcontract directly with the national laboratories. This concept was abandoned in the Final RFP. Several of the national laboratories had interactions with several potential Offerors. We became aware of these interactions, and immediately, we requested the national laboratories provide information regarding all such interactions. Based on the responses from the national laboratories, we are posting on our web site, under Additional References and/or Clarifications, copies of presentations from those interactions with the following disclaimer:

DE-RP08-00NV12101. These documents and interactions do not represent the opinions of the SEB, the Source Selection Official or the Department of Energy.
